SUMMARY

Motivated frontend developer with hands-on experience from internships, specializing in creating responsive and user-friendly web interfaces. Skilled in HTML, CSS, JavaScript, and React.js, with a strong understanding of modern design principles and web development practices. Passionate about solving real-world problems through innovative solutions and eager to apply my skills to build dynamic web applications. Proven ability to collaborate in team settings and adapt quickly to new technologies.

S.G.D MODERN SCHOOL ,CHIRKUNDA

📅 04/2011 05/2020   📍 Dhanbad, Jharkhand

12th CBSE BOARD
SSSS Gurukulam

📅 10/2020 05/2022   📍 Dhanbad, Jharkhand

Bachelors in Computer Applications
University College Of Engineering & Technology ,VBU

📅 07/2023 07/2027   📍 Hazaribag, Jharkhand

PROJECTS

Weather application
📅 07/2024   08/2024   📍 remote

- Developed a weather application using JavaScript, where I integrated APIs to fetch real-time weather data and displayed it in a user-friendly interface. This project helped me enhance my skills in JavaScript, API handling, and responsive design while deepening my understanding of data manipulation and interactive web development.

Personal Portfolio Project
📅 07/2024   08/2024   📍 remote

- Utilized HTML for semantic markup to structure the content, ensuring accessibility and search engine optimization SEO . CSS was employed to create a visually appealing layout using advanced styling techniques, including flexbox and grid for responsive design. JavaScript played a critical role in enhancing interactivity, leveraging DOM manipulation and event handling to deliver a dynamic user experience. This combination of technologies enabled me to build a well-optimized, engaging portfolio that effectively showcases my skills and projects
